Frameworks	Laravel, Vue.js, jQuery, Backbone.js, Angular, Node.js
Databases	MySQL, relational database design & query optimization
Cloud & DevOps	AWS (EC2, S3, deployment & ops), server configuration
CMS & APIs	WordPress (custom plugins), RESTful API design & third-party integration
Domain Expertise	CRM, PMS, Channel Manager integration, e-commerce, booking systems
Leadership	Technical Lead, Delivery Lead, Project Management, Agile/Scrum, code review, mentoring

PROFESSIONAL EXPERIENCE

Technical Lead May 2025 – Present

Career Team — Colorado, United States (Remote)

- Lead architecture decisions and technical direction for enterprise web applications; drive code quality standards and team performance.

Project Manager / Lead Developer Jan 2023 – Present

Nitro Tech Media — Philippines

- Managed end-to-end delivery of multiple concurrent projects; led Laravel development team, enforced coding standards, and mentored junior developers.

Laravel Developer Mar 2023 – Nov 2025

newhomesguide.com.au — Australia (Remote)

- Built and maintained high-traffic Laravel applications for Australia's real estate market; delivered performance optimizations that improved scalability and user engagement.

Back-End Developer / Delivery Lead May 2021 – May 2025

Dog & Rooster — San Diego, CA, United States (Remote)

- Architected custom CMS platforms and RESTful APIs; deployed and managed AWS infrastructure (EC2, S3) ensuring high availability and security.
- Served as Delivery Lead – coordinated cross-functional teams, managed release timelines, and owned end-to-end project delivery.

Back-End Developer Jul 2022 – Dec 2022

Aegis Virtual Team — Philippines

- Contributed to back-end development and API integration for client web applications in an agile remote environment.

Laravel Developer May 2022 – Aug 2022

Mash Media — United Kingdom (Remote)

- Scaled and maintained production Laravel applications, improving reliability and response performance.

Laravel Developer Mar 2022 – Aug 2022

Boost Your Business — United Kingdom (Remote)

- Built custom REST APIs for WordPress plugins; maintained CRM and PMS platforms for UK business clients.

PHP Developer Sep 2021 – Feb 2022

Atlantis Technologies — Philippines

- Maintained booking and e-commerce systems for local hospitality clients; integrated Channel Manager for multi-platform inventory management.

Software Engineer Mar 2020 – Jun 2021

Hiraya MNL

- Translated UI/UX wireframes into cross-browser-compatible templates (Laravel + Vue.js); acted as integration hub between client-side and server-side teams on large engagements.

Software Engineer Dec 2018 – Jun 2021

Geekbit Interactive Solutions — Cavite, Philippines

- Designed and implemented full-stack architectures for multiple concurrent client projects including Stockbox Minimart, New Generation International Schools, Blessed Travel & Tours, Apptopus Campus Management System, Apptopus Classroom Attendance Tracker, and Amor Del Playa.

Senior Developer / Junior Developer Mar 2019 – Aug 2020

Apptopus Inc.

- Promoted from Junior to Senior Developer within 7 months; collaborated with upper management on system architecture and delivery planning.
- Designed, developed, tested, and documented applications in PHP, Java, HTML, and C++; conducted code reviews and remediated legacy codebases.

EDUCATION

BS Information Technology, Lyceum of the Philippines – General Trias, Cavite 2016 – 2018

BS Information Technology, AMA Computer College – Cavite Campus 2012 – 2015
